RETURN MADE IN COMPLIANCE WITH AN ORDER OF THE  
HOUSE OF COMMONS, 27th MARCH, 1835,—For

“ An Analytical Digest of the Reports made to Parliament by the Commissioners upon the Public Charities since the last Digest in August, 1831; such Digest to embrace the Counties and Cities which were then omitted, the inquiry into them not being at that time complete.”

THE former Digest was prepared in pursuance of an Address to His Majesty, dated 4th August, 1831, for

“An Analytical Digest of the Reports made to Parliament by the Commissioners upon the Public Charities, to contain, so far as is practicable, the following information under the heads of Counties, and of every city and town in each county :

“The quantity of land, and the number of houses, with the nature of the tenure when less than an estate of inheritance; the rent paid for such land and houses respectively;

“The amount of money, stating the sums in the funds, upon mortgage and personal security; distinguishing the amount of money to be advanced by way of loan with or without interest, and whether the same be so applied :

“The number and amount of unimproveable rent and other charges; distinguishing those not exceeding 5*l.*, 10*l.*, 20*l.*, and under 50*l.* :

“The number and kind of Ecclesiastical Presentations, and also the number of scholarships, and whether the latter are made available :

“A statement of the number and amount of deductions made for land-tax, and at what rate in the pound :

“To distinguish the amount of rent or interest which is applied to parochial purposes :

“The number and situation of the endowed schools in each county, stating the total income and the number of children educated in each, and whether such children are partially or wholly educated free of expense, as also whether the master receives any other scholars than those belonging to the foundation.”

In the following pages will be found a continuation of such Digest, differing from the preceding one in form, but containing nearly the same information, with some considerable addition thereto, under the heads of Counties, and of every city and parish in each county, viz. :—

The name of the Charity or Donor :

For what purpose each charity is applicable :

It will be observed that the former Digest did not contain this information.

The quantity of land and number of houses, and the aggregate rent paid for such land and houses collectively : and in the observations annexed is noticed any tenure less than an estate of inheritance :

The amount of money, stating the sums in the funds, upon mortgage, personal and other security, and the annual produce thereof :

The amount of money to be advanced by way of loan with or without interest is distinguished by the statement of the object of every donation in the 4th column, and whether the same be so applied or not will appear from the column of observations :

The amount of unimproveable rents and other charges :

A statement of the amount of deductions for land-tax as far as relates to rent-charges and unimproveable rents, this only being considered the object of inquiry, and in such cases only do the Reports in general distinguish sums paid for land-tax from other outgoings :

The amount of rent or interest applied to parochial purposes will be found by referring to the column in which the object of each charity is stated, and also to the last column, in which, if a charity given for parochial purposes is not so applied, or given for other uses is so applied, the fact is mentioned.

This Digest also contains a column giving the total income of each charity:

And in the last column will be found a short statement of the result of the inquiry wherever it appears from the Reports that any material alteration has been effected by the interference of the Commissioners, and such other observations as have occurred in the perusal of the Reports.

At the end of each county will be found the number and situation of the endowed schools in such county, and a statement of the total income; and the number of children educated free of expense; and in a column reserved for that purpose a cross (x) is affixed opposite to all the schools in which it is to be collected from the Reports of the Commissioners that the master receives other scholars than those on the foundation.

This part of the Digest also contains an account of the number of scholarships and exhibitions annexed to each school, or appropriated generally for the benefit of each county, and whether the same are made available, and the number and kind of Ecclesiastical Presentations.

There will also be found a similar Digest relating to some charities, the benefit of which extends to several different places; and which were consequently reported upon under the head of General Charities.

The Digest is divided into four parts. In the first part is contained an Analysis of the Reports relating to counties which are contained in the Digest of 1832, but on which Reports have been subsequently presented, viz., as to

Counties of Bedford,

Gloucester,

Northampton,

Nottingham,

Oxford,

Stafford,

Suffolk,

Surrey,

York.

Part II. comprises the Reports relating to counties in which the inquiry has been completed since January, 1832, viz.:

Counties of Buckingham,

Herts,

Monmouth,

City of Norwich,

Norfolk.

In North Wales.

Anglesey,

Caernarvon,

Merioneth,

City of Coventry,

Warwick,

Wilts,

Worcester.

In South Wales.

Cardigan,

Carmarthen,

Pembroke.

Part III. comprises the Reports relating to three counties, in which the inquiry into Charities for Education only was completed under the first Commission, viz., those of

Berks,

Kent,

Sussex.

Part IV. comprises the Reports relating to a district in which the inquiry, though considerably advanced, is not yet complete, viz.:—

The City of London.

Charities vested in the Chartered Companies.

Parochial Charities.

City of Westminster.

County of Middlesex.

There are two counties, Dorset and Essex, in which the inquiry has been commenced, but as the progress has not been of great extent, it appears that a Digest of Reports relating thereto would be of little or no public benefit.

---

At the end of the Digest will be found a Summary embracing all the counties in which the inquiry is completed, and also the county of Middlesex, cities of London and Westminster, and charities vested in the chartered companies of the city of London, as far as they have been reported upon, and certain General Charities. This Summary will furnish a statement of the following particulars in each county, &c. respectively, viz.:

The whole quantity of land.

The number of houses.

The amount of Stock, bearing interest respectively at 3, 3½, 4, or any other rate per cent.

The amount of money, whether on mortgage or other security.

The income arising from rents.

Ditto, from rent-charges, land-tax deducted.

Ditto, from personal property.

The amount of income applicable to endowed schools.

Ditto, to education not annexed to endowed schools.

The whole amount, applicable to education, added together.

The amount of income applicable to other purposes.

The total income of all charities, including those for schools, for education and other purposes.

\* It has been found impossible to distinguish, with any degree of accuracy, the income of Charities under the Chartered Companies applicable to education and to other purposes. The income of the endowed Schools is generally included in the City or County in which they are situate, and the only important exceptions to this rule are Sir A. Judd's School at Tonbridge and Colfe's School at Lewisham, the income of the former being included under the Skinners' and that of the latter under the Leathersellers' Company.
